

PRAIRIE DISCRETE MATH WORKSHOP

16-17 May, 2016

University of Manitoba

The purpose of this two-day meeting is to bring together researchers in discrete mathematics from across the prairies and neighbouring provinces and states. The topics of the meeting will be areas of discrete mathematics including graph theory, design theory, combinatorial enumeration, and combinatorial algorithms.

INVITED SPEAKERS:

Plenary speaker: Jamie Radcliffe (University of Nebraska-Lincoln)

Plenary speaker: Petra Berenbrink (Simon Fraser University)

Brian Alspach (University of Newcastle)

Mahshid Atapour (University of Saskatchewan)

Ben Li (University of Manitoba)

Joy Morris (University of Lethbridge)

Ortrud Oellermann (University of Winnipeg)

ORGANIZER:

Karen Gunderson (University of Manitoba)

REGISTRATION:

Participants are required to register.

Those submitting talks or applying for support must do so by 1 April 2016. Visit

<https://docs.google.com/forms/d/1rLPB4sFThJesoirPjwAmICl3UxVBP6wi9dtgzJgdq5Y/viewform>.

There is no registration fee.
